The Company

Helping other businesses succeed, through efficient and smarter ways of work is the main focus; and is how they have bread their success so far.

This MSP focus on helping businesses succeed through technology consultancy, remote working solutions as well as project delivery and on-sire support.

With an innovative approach to technology based business solutions, they are looking to welcome a dedicated 2nd Line Support Engineer to the team to grow with them, and be a part of the future success that they're destined to endeavour.

With an exciting portfolio of different projects with SME's, they want someone excited to be technically hands on, and looking for a new challenge with the prospect of working on more senior support and infrastructure roles prior to the success of projects.

This is a very varied and well-rounded Senior IT Support & Projects based position so you will need the technical experience and confidence to speak with clients regarding their needs and wants to move forward.
