Company: In Technology Group

Location: Birmingham

Category: computer-and-mathematical

Role: IT 2nd Line Engineer

Location: Birmingham

Salary: £35,000 - £40,000

The Company

Helping other businesses succeed, through efficient and smarter ways of work is the main focus; and is how they have bread their success so far.

This MSP focus on helping businesses succeed through technology consultancy, remote working solutions and IT Support to a varied range of clients, both local to the west midlands, as well as across the UK.

With an innovative approach to technology based business solutions, they are looking to welcome a dedicated 2nd Line Support Engineer to the team to grow with them, and be a part of the future success that they're destined to endeavour.

With an exciting portfolio of different projects with SME's, they want someone excited to be technically hands on, and looking for a new challenge with the prospect of working on more senior support and infrastructure roles prior to the success of projects.

This is a very varied and well-rounded Senior IT Support & Projects based position so you will need the technical experience and confidence to speak with clients regarding their needs and wants to move forward.

Technical Overview

* Windows OS & Server
* Office 365
* Antivirus
* Exchange Server
* TCP/IP Networking, Routing & Switching
* Desktop & Server Hardware
