

## Actemium - Graduate Project Engineer (Mechanical/Electrical)

[Apply Now](#)

Company: ACTEMIUM

Location: United Kingdom

Category: architecture-and-engineering

### **Unleash your creativity, your curiosity, your boldness, your ambition, your commitment**

We are currently looking to appoint a number of high achieving talented graduates to join our Graduate Project Engineer programme at offices across England.

Competitive Salary + Pension + EV Car Scheme + Share Scheme + Professional Memberships

### **Why Join Our Graduate Programme?**

From day one you'll deliver real projects with some of the most recognisable brands in the world

You'll get exposure to all aspects of a project ensuring you're well prepared for your transition to Contract Engineer

You'll be supported to achieve professional accreditation and receive targeted off the job training

You will be joining an international group with turnover of €3bn and over 22,000 staff working all over the world

You'll have many opportunities to express your creativity, your curiosity, your boldness, your ambition and your commitment.

These qualities are the fundamentals of our culture and underpin the way we carry out our business.

## What you'll need?

To be on target to achieve a degree in an engineering discipline (ideally Mechanical or Electrical)

The passion and drive to pursue a career in Contract Engineering

Have flexibility and be prepared to do whatever it takes

A focused and dedicated approach to your learning and development

Creativity, boldness, curiosity, ambition and commitment

## We will be holding a Graduate Interview Day around April/May 2024

Many thanks.

### Entité
