Company: Counterpoint Market Intelligence

Location: Greater Cambridge Area

Category: other-general

About Counterpoint:Counterpoint Market Intelligence provides detailed research reports and consultancy services for aerospace and defence markets. Our market research focuses on aerospace supply chains with a special emphasis on Tier 1 and 2 suppliers. Over the last twenty years, we have developed an extensive portfolio of standard research reports based on industry discussions, subject matter experts, data analysis and modelling, industry research and our own experience in the industry. We offer independent analysis, based on our continuous involvement in the markets we cover. We aim to be specialists not generalists.As Counterpoint enters into its next phase of growth, we are looking to expand our team, enhance our product offerings and improve our capabilities. This is a perfect opportunity for a dynamic and analytical professional to join a team that is committed to providing top-tier market intelligence and shaping the future of the aerospace and defense sectors.

The role:Take an active role in writing and maintaining our aerospace market research reportsSupport data analysis and modelling activities; this involves updating, executing, and improving our proprietary industry modelsSupport our bespoke consulting projects through market research, interviews, and analysisSupport the company on internal process improvements, such as improving automation or enhancing our productsThe role is hybrid, but the candidate should be able to meet in Counterpoint's office in Chesterford Research Park 3 days per weekThe candidate should be willing and able to travel to clients and conferencesExperience and skills:Bachelors degree with at least two years work experiencePrior experience in the aerospace industry (this can include work for an aerospace supplier, consulting in the aerospace industry, degree in aerospace engineering,

etc)Genuine interest in the aerospace industryData analysis skills, including work with large datasets. Excel is experience is required; experience with SQL is optional but desiredAbe to write clear and concise English proseAble to communicate in a professional manner, particularly when conducting interviews or representing the company at conferences Please note that we will be looking for prior aerospace experience. If this is not clear in your CV, we recommend including a cover letter to provide more details.
