Agile IT Project Manager

[Apply Now](#)

Company: PZ Cussons

Location: United Kingdom

Category: other-general

We are PZ Cussons. Our purpose is **For everyone, for life, for good.**

Sustainability and the wellbeing of people, families and communities everywhere are at the heart of everything that we do.

Since our founding in 1884, we have been creating products to delight, care for and nourish consumers. Across our core categories of Hygiene, Baby and Beauty, our trusted and well-loved brands include Carex, Cussons Baby, Sanctuary Spa and St. Tropez.

If you want to join a business in transformation with exciting growth plans and the opportunity to work flexibly and finish at 1pm every Friday, apply to work for us today!

This role can be based from either our Manchester or London office in line with our hybrid policy of 2-3 days in the office per week.

Functional accountability

- Champion and embed agile methodologies and culture within projects, promoting continuous improvement and collaboration.
- Ensure projects and sprints are delivered on time, within scope, and budget using agile practices.
- Engage and coach stakeholders on agile values and practices, facilitating effective collaboration.
- Oversee project governance, incorporating industry best practices in agile project management.
- Foster a team environment conducive to agile learning and growth, and report project progress adhering to agile principles to the Head of Global Project Management.

Functional/Professional Experience

- Agile Methodology Expertise** Proficient in various agile practices (Scrum, Kanban) and

experience in implementing these in projects. • **Project Management Skills**: Strong project management skills, including planning, execution, monitoring, and closing projects. •

Stakeholder Management: Ability to manage and influence stakeholders at various levels within an organization. • **Communication and Team Leadership**: Excellent communication

skills and the ability to lead and motivate teams in a collaborative environment. • **Problem-**

Solving and Adaptability : Strong problem-solving skills and the ability to adapt to

changing project requirements and environments. • **Industry Knowledge**: Knowledge of the specific industry in which the projects are being managed. • **Certifications and**

Continuous Learning: Relevant certifications (e.g., PMP, CSM) and a commitment to continuous learning in agile practices.
