

Agricultural Service Technician - Western Australia - JN058

[Apply Now](#)

Company: De Lacy Executive Limited

Location: United Kingdom

Category: other-general

Are you a qualified mechanical engineer with a passion for agricultural machinery? Do you seek to broaden your skills and experience across a wide range of premium machinery brands, all while embracing the classic 'Aussie' lifestyle? If so, we're keen to hear from you. Our client, a reputable, family-run agricultural machinery dealership with three branches in Western Australia, is seeking service technicians from abroad to join their business. Offering opportunities for both graduate and more experienced individuals genuinely committed to trying something new overseas (either permanent or temporary), our client is fully prepared to support with relocation costs and visa applications where necessary.

You will service a range of premium brand machinery (including AGCO products among others) from tractors to sprayers, combines to drills and everything in between. The role would suit someone seeking variety in their work (approximately 70% of your time would be spent on the road, roughly 30% workshop based). You will possess strong, interpersonal skills and enjoy delivering excellent customer service.

What your day-to-day would look like:

Mechanical servicing (technical and diagnostics) both in workshop and on site

Covering a territory typically within 3 hours drive of your base depot

Building relationships within team and with customer base

Meet and exceed customer expectations

Working under time pressure (e.g. especially during seasonal peaks such as

seeding/harvest)

What you will possess:

Mechanical Engineering degree (or equivalent from a related field)

Practical knowledge and experience of modern, market-leading agricultural machinery (including diagnostics)

A genuine commitment to living/working in Australia (either short/mid-term or permanently)

Flexibility to work with seasonal variations

What you can expect:

Highly competitive salary package (unrivalled in the UK for similar roles)

Relocation/migration support (both financial and advisory)

Company vehicle (fully equipped 4x4)

Plenty of opportunities for professional development

Broad overtime opportunities

4 weeks of annual leave + 10 days of public holidays

Aspirational lifestyle

Lower cost of living (compared with the UK)

Working for a well-established, family-run business
