Analyst In Evidence Review and Health Economics - Health Economics and Market Access F/M/X

[Apply Now](#)

Company: Amaris Consulting

Location: United Kingdom

Category: computer-and-mathematical

Job description

Health Economics and Market Access Department:

We have a worldwide presence ensuring key market expertise and efficiency in delivery. We have offices in Montreal, Toronto, London, Paris, Barcelona, Sofia & Shanghai. We are a diverse team of 15 different nationalities. We offer services for 5 major activities: Evidence review and Value Communication, Strategic Market Access, Health Economics, Biostatistics, and Real-world evidence. We are strengthening client positioning through evidence review and value communications, creating value through evidence analytics understanding payer expectations, and informing access strategy.

We are looking for dynamic consultants to grow our **Health and Economics Market Access** team. Your experience, knowledge, and commitment will help us to face our client's challenges. You will be supporting different projects through your expertise as an Analyst in **Evidence Review and Health Economics**.

Your main responsibilities:

Design or supervise the design of optimal project solutions to address client needs within market access, value communication, and evidence review

Acting as lead analyst and/or project manager on market access, value communication, evidence review projects, supervising and mentoring junior analysts

Organize, supervise, and support the project team to ensure high-quality work, as well as efficient and timely completion of the project

Provide strategic advice within the context of the project (within and beyond the project scope)

The project mix will contain, but is not limited to:

Global Value Dossiers / Global Reimbursement Dossiers

Evidence Review activities (Systematic/Targeted Literature Reviews)

Development of value strategies

Development and testing of value stories and messages

Payer value communication tools

Conduct HTA submissions to EU-5 and other HTA markets (including Canada)

Developing technical reports and presentations to disseminate findings.

Develop and manage project stakeholder relations and communications (internal and external)

Monitor resource, budget, and delivery requirements

Collaborate closely with the business development and delivery management teams, participate in business development meetings

Developing technical reports and presentations to disseminate findings

Qualifications:

Advanced degree in a relevant healthcare/bioscience subject (e.g. MSc/PhD in pharmacy, public health, healthcare management, biopharmaceutical sciences, etc)

3+ years of direct experience in evidence review or value communications experience gained primarily in consulting, but also academia or industry

The successful candidate will offer specific content-related skills and experience in:

Contributing to the development of global value dossiers, value communication

tools, evidence reviews (Systematic Literature Reviews and Targeted Literature Reviews), and health economic models (bonus)

Incorporating multiple evidence sources into a comprehensive and compelling story

Analysis of research findings and translating into meaningful recommendations to clients

Providing methodological input into evidence review and value communication projects

The successful candidate will offer working knowledge of:

Interpretation and appraisal of biomedical and outcomes research

Various types of literature review methodologies and searches

National, regional, and local market access mechanisms and key stakeholders

Evidence requirements for health technology assessments in key markets

The ideal candidate will possess the following skills in addition to the requirements:

Ability to work independently as well as in a team environment

Fluency in English and effective verbal and written communication skills

Strong fluency in Microsoft and other commonly used bibliographic software (Word®, PowerPoint, Excel, Outlook, EndNote, etc)

Ability to demonstrate key Amaris values - trust, independence, performance, commitment, and boldness

Knowledge of clinical research to interpret, critique, and summarize evidence

Working with cross-functional teams (Stats/HE/Evidence Review/other)

Amaris Consulting is proud to be an equal-opportunity workplace. We are committed to promoting diversity within the workforce and creating an inclusive working environment.

For this purpose, we welcome applications from all qualified candidates regardless of gender, sexual orientation, race, ethnicity, beliefs, age, marital status, disability, or other characteristics.
