Company: Mace

Location: United Kingdom

Category: computer-and-mathematical

The opportunity

Our multidisciplinary design team is part of Mace's consultancy technical services. Our design team includes architects, engineers, urban designers, master planners and interior designers. We deliver projects nationally for both public and private sectors including government departments, local authorities and private developers.

At Mace, we work diligently to build strong client relationships through open and honest communication, to exceed delivery expectations and to attract and retain the best and brightest in the industry. We are committed to nurturing a collaborative and client-focused culture that treats every engagement as a new opportunity to deliver better and smarter.

We have a bold vision to be the most trusted and respected provider in the construction industry. We want the experience of working with us to be so responsive, so refreshingly open and transparent and so enjoyable from start to finish that it raises not only our client's perceptions of us but also the construction sector as a whole.

Mace is recruiting qualified architects to lead and develop public and private sector projects in our multidisciplinary design team within consultancy technical services. This role can be based from London, Manchester, Winchester, Leeds or Birmingham.

The projects are new builds, extensions, remodels and refurbishments with project values between £100k and £10m for clients including the local authorities. Our design team develop residential and mixed-use projects, too.

Your responsibilities will include:

Delivering projects from feasibility to tender including stage reports, planning applications, building regulation applications and employers requirements.

Being the technical advisor in reviewing the contractor's proposals and site operations during the post-tender stage.

Directing a design team and client engagements.

Structuring their workload and deliverables as well as those of their project assistant to achieve the requirements of the project and programme.

About you

You are Part 3 qualified, ARB or ICAT registered. You are digitally savvy, especially in using BIM and Revit software and can build lasting client relationships and provide support to strong, motivated teams. You will have experience in public and private sector projects in a multidisciplinary design team within consultancy technical services background and be hungry to grow your career and enjoy the opportunities Mace has to offer.

The candidates will be asked to complete a BIM/Revit test at the interview stage.
