

Asset Management Consultant

[Apply Now](#)

Company: RSK Group

Location: United Kingdom

Category: business-and-financial-operations

Binnies have an exciting opportunity to join the Operations and Maintenance team with Asset Management. The role will be largely field based, visiting client sites to safely conduct a number of surveys and asset data collection exercises to aid with maintenance transformation work and helping clients to understand the condition of their asset base. The role comes with a requirement to travel UK wide through the week, working with a number of water companies in a number of settings. Upskilling and training on new and innovative technology will be provided.

When not on site, the successful candidate is required to help with documentation of findings, planning of future site visits and delivery of other projects as required.

About the Role:

Working across mechanical, electrical and ICA assets

Working on the innovative KenWave technology to determine pipework condition

Demonstrating a customer facing, positive and professional representation of Binnies

Working collaboratively with other teams in asset management, across Binnies and with Client Organisations

Essential requirements:

Experienced in working on operational or industrial sites, with an excellent safety record and a positive attitude towards health and safety

Proven track record of being a positive contributor in a fast paced team environment

Familiar with mechanical and electrical assets and instrumentation

Desirable Requirements:

Familiar with Water and Wastewater Processes
