Category: construction-and-extraction

Assistant Facilities Manager - Sudbury

Salary: £30,000 and Industry Leading benefits

Carbon60 are looking to recruit an experienced Assistant Facilities Manager to join an award-winning facilities management company based at their clients manufacturing site In Sudbury. This is a great possibility to join a well-established business offering a wide range of opportunities and progression.

Salary: £30,000 per year

Permanent - Full Time 40hrs

Role:

Oversee and ensure compliance within the soft services departments aligning with the client's health and safety protocols.

Coordinate the day-to-day service delivery, maintaining statutory, mandatory, and contractual compliance across the soft services department.

Assist in managing the site in the absence of the Facilities Manager, supporting the development of business strategies to meet current and emerging client needs.

Lead a culture of safety, ensuring all Safeguard administration and logistical operations prioritise health and safety.

Manage, train, and support the on site team, ensuring high standards of service delivery and employee engagement.

Optimise operational efficiency and profitability, working closely with the FM Manager and utilising systems such as Kronus and Eprofit. What you bring:

Strong interpersonal and communication skills, with the ability to engage effectively with clients, team members, and stakeholders.

Experience in facilities management, particularly in waste management within a manufacturing or similar environment.

Proven ability to manage training, risk assessments, and standard operating procedures.

A track record of successful people management, including recruitment, training, and performance management. What's on offer:

£30,000 per annum

A competitive salary and benefits package.

Opportunities for professional growth within a global company renowned for its commitment to excellence and employee development.

A supportive work environment where your expertise in waste and facilities management will be valued and nurtured.

Carbon60, Lorien & SRG - The Impellam Group STEM Portfolio are acting as an Employment Business in relation to this vacancy.
