

## Assistant Project Management Engineer

[Apply Now](#)

Company: RSK Group

Location: United Kingdom

Category: business-and-financial-operations

### About the Company

██████████ work for one of Ireland's most progressive and ambitious engineering and environmental consultancies. We work in sustainability so if you want to progress your career in a socially responsible company working towards a sustainable planet then join us.

We are based in Ireland but also work in the UK, Europe, Africa, Asia, and the Middle East.

We are part of the RSK Group, a group of more than 175 companies with over 11,000 employees operating around the globe, and are one of the leading engineering and environmental science companies in the world.

### About the Role:

██████████ is recruiting an Assistant Project Management Engineer to deliver client-side services in the Water Sector in Ireland. The successful candidate will have a responsible role on a team accountable for the delivery of major projects with a focus on the scope, budget, schedule, and risk as part of a major capital investment programme.

Reporting to the Project Management Engineer, the Assistant Project Management Engineer will assist in managing the project from planning and design through to the successful completion and commissioning of the project. The Assistant Project Management Engineer will assist in delivering the project on time, to budget, and to specification, ensuring the project achieves all project goals and objectives in accordance with the Employer's requirements and the corporate strategic intent for the portfolio.

### Key Duties and Responsibilities:

██████████ Assist in the delivery of the project around the schedule, interface, cost, variations,

contract, and risk, liaising with the relevant team members and functions as required.

Assist in Stakeholder consultation.

Provide inputs into monthly Reports on the tasks throughout the project's lifecycle including construction works (during the construction phase) that have been undertaken.

Maintain the overall project risk register and update at monthly progress meetings.

Assist in the development of cost estimates.

Assist in the detailed review of Contractor's design and deliverables.

### **Key Requirements:**

Minimum of 3+ years' experience in the Construction / Infrastructure sector on projects of a similar size and complexity

Relevant third-level qualification in engineering or related discipline.

Some knowledge & experience of project management methodologies,

Water engineering technical capability.

Knowledge & experience of contract administration & delivery.

Strong communication and interpersonal skills.

Report writing skills.

Computer literacy.
