

Associate - Civil-Structures

[Apply Now](#)

Company: Robert Bird Group

Location: London Area

Category: construction-and-extraction

About Us Robert Bird Group is a leading international structural, geotechnical, civil and construction engineering design consultancy. We are specialists in the built environment and complex infrastructure. We maintain a one firm ethos and family culture which has allowed the business to operate across all barriers, always focused to achieve best for project, and best for our people. The Opportunity Due to continuing growth within the organisation, we are seeking to expand our Infrastructure Team by expanding the dedicated resources in this area. The opportunity is working with a high performing, service-oriented and collaborative team. We are looking for an Associate Engineer to join the London Office. This is an exciting time for Robert Bird Group, as we go through continual expansion and have a full portfolio of landmark buildings and infrastructure projects which presents an opportunity for someone looking to further their career within a thriving engineering consultancy. Duties Undertaking preliminary and detailed design for infrastructure related projects including retaining walls, culverts, station boxes, bridges, footbridges and other rail and road related structures Responsible of the preparation of the project approval documents with organisations like Network Rail or High Speed 2 Assessing existing structures (rail or road infrastructure), from initial inspection for assessment to delivery of repairs Undertaking Category 3 Checks of third parties' structural designs Using tools to measure and, where possible, actively reduce carbon output, considering sustainability at all stages of design Proactively and ethically motivating and leading project teams to deliver superior outcomes. Commercial support to team leaders by collecting, preparing and compiling fee proposals, variations or invoices. Including NEC3 or 4 contract management specific

tasks.Supporting the career planning, mentoring and training of more junior team membersSupervising other colleagues under your direction and offering pro-active advice in relation to problem solving issuesCompliance with and overseeing implementation of Health and Safety policies and proceduresExperience and KnowledgeBEng or MEng (Hons).Chartered Status with ICE or IStructE or other equivalent bodyRelevant structural engineering experience, especially in the rail or highways environment, this may include but is not limited to retaining walls, culverts, station boxes, bridges, footbridges and other rail and road related structuresExperience on project approval processes for transport authorities i.e. Network Rail, High Speed 2 and/or Transport for LondonExcellent communication skills including written EnglishNEC contract management experienceSoftware used: Lusas and Strand7, alternatively Etabs or MidasWhy Work With UsRobert Bird Group is a growing, fast-paced business which offers birthday leave, corporate health insurance rates, paid parental leave, recognition awards, an active and engaging social club, along with a supportive team environment where healthy lifestyle balance is encouraged.How to applyAll applications must be submitted online.
