Associate Consultant (SAP Software & Applications Development)

[Apply Now](#)

Company: The Config Team

Location: United Kingdom

Category: computer-and-mathematical

The Config Team

Discover your potential and change how the world works at the home of SAP Consultancy. A company small enough to care, big enough to compete.

Job title: Associate Consultant (SAP Software & Applications Development)

Employment: Permanent, 40 hours per week, Monday - Friday

Travel: Occasional UK and International Travel

Location: Commutable distance to Skelmersdale, Hybrid/Remote work

Salary: Excellent basic salary, state-of-the-art equipment, private healthcare, 25 days holiday, life insurance 4x annual salary, volunteer day, plus more!

The Company:

This is your opportunity to work for an award-winning and Investors In People Gold organisation with offices based in the UK & Australia. We are a leading technology company with a focus on SAP software consultancy. At our core, we're committed to fostering a people-centric culture that values collaboration, employee well-being and continuous learning and development.

As an Associate, you will kick-start your journey into IT and Software Consulting which offers rewarding and fulfilling work, and where exceptional career progression can be achieved. Guided by SAP experts, you'll receive personalised mentorship and support whilst upskilling in SAP software development.

Who We're Looking For:

Whether you're a recent university graduate, have prior SAP end-user experience, or are seeking a career change, our Associate Academy welcomes people from diverse backgrounds and a hunger for growth. Designed to offer meaningful career pathways, our programme is tailored to nurture early careers and provide purpose-driven roles within the SAP landscape.

In your role as an Associate Consultant, your learning and development will be supported by the Academy Programme, which traditionally takes 12 months, where upon successful completion you will be promoted to Technical Consultant.

As part of the Associate Academy, you can expect:

Experiential training and immersive, project-based learning in a supportive environment.

Soft skills development through our Personal Effectiveness Programme.

Visiting and working with high-profile clients on various software implementation projects.

Working under the guidance of a mentor who will support you throughout the programme.

Build an understanding of the technical elements of SAP software and applications including configuration, bespoke software designs, developments, and the build of an SAP demo system.

Become a software developer for SAP systems and products.

Required Skills, Experience and Knowledge

To thrive in our Associate Academy, you should possess:

An interest in software innovation and the development of new software applications and products.

Knowledge of Web development such as basic HTML/CSS.

Experience with JavaScript and JavaScript UI frameworks.

Mobile Development experience with Native or Cross Platform frameworks.

An understanding of User Experience (UX) and/or User Interface (UI).

Great interpersonal and communication skills.

We operate a hybrid working model, which means a mixture of homeworking, office and customer site visits. **Successful candidates must possess a driver's licence, live within a commutable distance of our Skelmersdale, Lancashire office and expect to spend 2-3 days in the office per week.**

More reasons to work at The Config Team?

Structured career progression and ongoing learning and development with fully funded training and certifications.

Annual salary reviews ensure your efforts are recognized and rewarded.

Hybrid working and modern-day working practices.

UK & Australian offices, with business expensed travelling.

Opportunity to work with globally recognised customers.

BUPA private healthcare insurance and Life Assurance policy 4x annual salary.

Wellbeing resources including 24/7 Virtual GP and free counselling sessions.

Salary sacrifice electric car lease scheme.

Company-funded charity donation of your choice.

CSR policies such as a Volunteering day.

Your birthday off and much more!
