This is a well-established practice with an excellent reputation, situated in an affluent village

between Doncaster and Scunthorpe. The practice is situated just off the M180, with parking on site; meaning this position is accessible for dentists around South Yorkshire, Wakefield, Selby, Goole, and North East Lincolnshire. The new associate will be inheriting patients from a longstanding dentist due to retire, meaning you will have a stable list of patients from day one, patients are not high needs, and with a high incidence of affluent attendees, private potential is very high. UDA delivery in the region of 2-3000 UDA per annum, working on a full-time basis is ideal, allowing for a good balance between NHS and private delivery - this number is flexible however and open for discussion.

The role would be well suited to a dentist at any stage in their career - for dentists with more specialised skills, the practice can offer significant support to ensure you can utilise these skills, the principal has other practices fairly locally, and associates regularly refer to each other across these sites. Equally, for a dentist younger in their career, this would offer an exceptional opportunity for development, the other associates in the practice have a lot of experience, and are happy to extend support to their new colleague - the role would suit a young dentist interested gaining more experience in private dentistry alongside managing a stable NHS list.

Successful candidates will be GDC registered dentists, have an active dentist performer number and have experience of providing NHS dental treatment in the UK.
