

## AWS Platform Engineer

[Apply Now](#)

Company: Harvey Nash

Location: London

Category: other-general

AWS Platform Engineer A scale up digital assests company is on the lookout for a talented AWS Platform Engineer to join their team. You would be responsible for;

- Defining and maintaining cloud procedures to ensure everything is fully documented
- Working with development teams to help achieve their cloud transformation objectives; including design, development and enhancement of solutions
- Providing expert level AWS platform and infrastructure support

They're seeking individuals with strong expertise in;

- Cloud infrastructure, including server, storage, networking and PaaS products
- Solid experience with IaC (infrastructure as a code) tools such as Terraform and ansible
- Familiarity with Linux would be a benefit
