Company: Real Staffing

Location: United Kingdom

Category: computer-and-mathematical

I am working with a University in London who are looking for an interim Data Engineer on 3-month basis.

Role responsibilities:

- Develop and maintain the Data Platform - including Datawarehouse / Data Lake, Cloud Infrastructure, Data Integration and Reporting / Visualisation solutions

- Design, build and maintain data pipelines to provide fit-for-purpose data services to customers.

- Automate common, repeatable data preparation and integration tasks

- Analyse business requirements and support the definition and maintenance of conceptual, logical, and physical data models.

- Maintain metadata and data lineage pipelines into data business and technical catalogue services

- Work with appropriate SMEs to analyse source data and make decisions on data modelling, storage, and processing

- Support and provide technical consultancy on the design and development of reports and visualisations.

Collaborate with technical and non-technical internal stakeholders to determine requirements and implement solutions for reporting that meets business needs.

Skills required

Extensive experience building cloud-based data platforms / data analytics solutions.

Experience of designing, developing, and managing Data technologies on the Microsoft Cloud and Hybrid / On Prem services - Azure Data Platform, SSRS, SSIS, Azure Data Factory, PowerBI.

Extensive technical experience of building various methods of data processing, data models using a variety of database and infrastructure types.

Excellent SQL/T-SQL skills and extensive experience in at least one other coding language (Python / R / .NET).

Expert knowledge of data modelling (entity, class, dimensional) and different database and data warehouse design patterns (OLTP, OLAP, Data Vault), their benefits and limitations under particular use cases.

Experience of integrating data from cloud and on-premises data sources into data analytics environment, using a variety of methods (ETL/ELT, Batch, Steam).

Duration: 3 month contract

Start date: ASAP (within next 2 weeks latest)

Rate: £500 per day

IR35 status: outside IR35

Location: remote
