Category: computer-and-mathematical

Azure DevOps Lead, Site Reliability Engineer, Unix Systems Administrator, Azure, Mainly Remote

Azure DevOps Lead required to work for a fast-growing and exciting company based in Central London. However, due to Covid-19, this will mainly be remote.

We need someone with a Microsoft tech-stack background who has experience as a Site Reliability Engineer (SRE), an Azure DevOps Consultant or even a good old fashioned Unix Systems Administrator. It is a new function that will grow significantly with time, therefore will create opportunity. Read on for more details…

Experience Required:

Demonstrable experience as a systems administrator, software developer, or network engineer

Knowledge of network protocols and network security

Passion for DevOps and Elastic service implementation technologies such as GIT, Docker, Jenkins, Cucumber, Chef, Terraform and Bicep

Experience with cloud computing platforms such as Microsoft Azure

A strong understanding of software development methodologies and practices

Other technical skills required: Azure Monitoring including Application Insights, ARM scripting, JSON scripting, Powershell Scripting.

Excellent communication skills to guarantee stakeholder alignment and successful outcomes at all stages of Product delivery and ongoing support.

This is a great opportunity and salary is dependent upon experience.
