Azure Lead Data Engineer

Apply Now

Company: Focus Cloud

Location: United Kingdom

Category: computer-and-mathematical

Who are we?

We're a global leader in Digital, Data, and Technology consultancy, recognized as a Microsoft Gold and Cloud Services partner. Specializing in Dynamics 365, Power Platform, Azure, Application Modernization, and Data & Analytics, we drive transformative solutions for public and private sectors.

Join us....

Embrace our values of collaboration, innovation, and technical expertise. Enjoy competitive compensation, bonuses, comprehensive benefits, and remote work flexibility with regular office or client visits. Benefit from mentoring and training for your career growth.

What will you be doing?

Join us as a Lead Azure Data Engineer, crafting cutting-edge solutions for top UK companies in our Analytics practice.

Key Responsibilities:

Advise clients on analytics best practices.

Translate client requirements into effective solutions.

Develop customized BI & Advanced Analytics solutions.

Implement solutions using data management best practices.

Create informative reports and dashboards.

What we would like you to have:

Strong client-facing experience.

Expertise across the Azure data platform.

Proficiency in Microsoft BI stack (SQL Server, SSIS, SSRS, SSAS).

Ability to translate business requirements into technical solutions.

Skills in data discovery tools (Power BI, QlikView, Tableau).

Experience with data modeling, ETL development, and Kimball methodology.

Awareness of Big Data and Data Science technologies.

UK applicants only. This is a hybrid role, can be based anywhere in the UK.Contact Faye at 0203 800 0792 or submit your CV.
