Company: nGenium

Location: London

Category: architecture-and-engineering

Biomedical Field Service Engineer

Salary: £25,000 - £36,000 + Vehicle

Location: London

### About the Role:

An exceptional opportunity awaits a skilled Biomedical Engineer to join our client's esteemed team in London. As a Biomedical Field Service Engineer, you will traverse various hospitals, delivering crucial services such as medical device repair, preventative maintenance, and asset management. Your duties will extend to liaising with third-party suppliers for spare parts and contract quotations, all while maintaining a superior level of customer service to ensure client satisfaction.

### About the Company:

Our client, a leading Bio-Medical Engineering company, is committed to delivering comprehensive services within the field. With a core focus on the supply, maintenance, and training of Bio-Medical Engineers, they have solidified their position as a pivotal industry player. From bolstering critical healthcare facilities to providing essential training, they consistently uphold the highest standards of excellence.

## About You:

- Minimum of 1 year of experience in medical equipment engineering.
- Proficiency/knowledge in working with a diverse range of medical devices.
- Prior experience in a clinical environment.
- A full UK driving license

## Why Choose nGenium:

**Exciting Opportunities:** As a specialised medical engineering recruitment agency, we offer access to a diverse range of contract roles tailored to your skills and aspirations.

**Supportive Partnership:** Your career growth and success are our top priorities. Our dedicated consultants, Jowell Grandison and Alan Ling, will provide ongoing support and guidance throughout your contract assignments.

**Industry Expertise:** With our deep understanding of the medical engineering field, we stay abreast of industry developments. Count on us to connect you with leading employers who value and appreciate your skills and expertise.
