

## BMS Commissioning Engineer

[Apply Now](#)

Company: Siemens plc

Location: United Kingdom

Category: architecture-and-engineering

Join our Smart Infrastructure division as a BMS Commissioning Engineer, specialising in the Building Management, Building Automation and Building Energy management markets. This is a fantastic role for an experienced BMS Service/Commissioning Engineer who has the ability and proven track record of working in the Building Management sector. We are looking for someone with proven experience of Servicing BMS, BEMs & BAS Control systems as well as Commissioning BMS systems.

The role will require travel across the whole of the UK, with the main activity being within the Greater London, Manchester & Birmingham regions.

It's incredibly important that our people enjoy working here and therefore we take great pride in having a friendly, helpful and engaging culture.

### **You'll make a difference by:**

You will work closely with our Sales & estimating teams, our Customer Relationship Managers & Operational teams to achieve best in class delivery for our customers

Maintaining and servicing existing BMS systems, including identifying and rectifying any faults and irregularities

Carry out BMS commissioning activities on newly installed or modified project installations.

Execution and commissioning of quoted service (small changes and additions)

Help us to further enhance our brand, reputation, and ability to offer best in class servicing for our customer base

## What skills and experience will you bring?

We are looking for an experienced Service / Commissioning Engineer with demonstrable experience within the BMS, BEMs & BAS industry.

Outstanding knowledge and experience with BMS Control Systems, the ability to fully commission and service Desigo CC & Optic control systems and write and modify graphics, this could be the role for you.

Degree in HNC/HND in engineering (or similar) would be advantageous, whilst a growth mindset and passion for life-long learning is essential.

## We have a lot to offer, what about you?

Siemens is constantly innovating and pushing the boundaries in how digitalisation shapes the future; we need the best talent onboard to support us on this journey.

The benefits package includes a generous base salary, overtime, company car, 26 days holiday, competitive pension scheme and other flexible benefits.

We value your unique identity and perspective and are fully committed to providing equal opportunities and building a workplace that reflects the diversity of society. Come bring your authentic self and create a better tomorrow with us! Please let us know if you require any reasonable adjustments to enable you to participate in the recruitment process.

For this role you must have full right to work in the UK without requiring sponsorship.
