

BMS Engineer - UK Home Based

[Apply Now](#)

Company: The Green Recruitment Company

Location: United Kingdom

Category: architecture-and-engineering

Overview

The Green Recruitment Company is working with one of the largest Facility Management firms in the UK who are looking to add a BEMS Engineer to their ever-growing Energy Team. The successful candidate would work closely with the Energy Manager and the BEMS Manager to ensure that the BEMS on their client's sites reaches optimum efficiency and meets required environmental conditions.

Responsibilities

Assist in site energy performance to budgets, pinpoint poor sites and help in improving their performance.

To detect, propose and execute energy saving programs through modifications to strategy programs or new technologies.

To arrange and appoint energy management systems to guarantee optimum energy saving benefits.

Study current BEMS programmes, site requirements and energy consumption data working collaboratively with the BEMS Manager to recognise short term & long term energy efficiency measures to guarantee the contracts are meeting their requirements, and occasions for cost savings and revenue enrichment are acted upon.

Knowledge Skills & Experience

Familiarity in BEMS programming and the use of the Trend System Engineering Tools

Knowledge in the set up & maintenance of Trend IQ networks and remote communications

Broad understanding of mechanical & electrical building services including, Building Energy Management Systems, HVAC and lighting control systems.

Great understanding of BACnet and Modbus communications protocol

Good commercial skills, with some experience of project management

Obtain a recognised electrical qualification
