ASAP

**BMS EXPERIENCE IS ESSENTIAL**

## **OVERVIEW:**

The project manager is an important senior and well respected role within the company which is a self-managed role with back-up from other staff. A project manager plans their own workload in line with the requirements of each project keeping the projects director informed of their plans at all times.

The project manager looks after the whole project process from receipt of order to handover and has the necessary knowledge and expertise to carry out the works to the customer's satisfaction in the most efficient and cost effective way possible.

## **RESPONSIBILITIES:**

The organisation and planning of the entire works from start to finish.

The production of technical submissions and description of operations.

The reading and interpretation of project specifications and schematics

Full cost management of allocated projects

Adhere to all company ISO, H&S procedures & policie

Overall responsibility for submitting project variations and interim applications for payment

Support final account agreements with the assistance from the Regional Manager or Commercial Director

## **ATTRIBUTES:**

Ability to work well as part of a team but also work efficiently on your own

Commercial awareness

Strong leadership qualities

Driven to achieve with a can-do attitude

Technical expertise on multiple BMS/HVAC products

Exp with one of the following systems: Trend, Tridium, Siemens, Distech

**PACKAGE:**

£55-70K

Car allowance, pension, health care etc
