Description

About GE Vernova

GE Vernova is a planned, purpose-built global energy company that includes Power, Wind, and Electrification businesses and is supported by its accelerator businesses of Advanced Research, Consulting Services, and Financial Services. Building on over 130 years of experience tackling the world's challenges, GE Vernova is uniquely positioned to help lead the energy transition by continuing to electrify the world while simultaneously working to decarbonize it. GE Vernova helps customers power economies and deliver electricity that is vital to health, safety, security, and improved quality of life. GE Vernova is headquartered in Cambridge, Massachusetts, ., with more than 80,000 employees across 100+ countries around the world. GE Vernova's **Gas Power** business engineers advanced, efficient natural gas-powered technologies and services, along with decarbonization solutions that aim to help electrify a lower carbon future. As part of the Gas Power One Field Services team, **FieldCore** installs, maintains and upgrades power generation equipment, enabling operators of the world's energy infrastructure to provide more reliable and affordable energy. FieldCore is looking for an engaged and driven Boilermaker to join our team based in UK on a project basis.

Let's Talk about the Role The Boilermaker will be working on industrial projects with industrial boilers / HRSG systems. They will have specific duties and responsibilities (this can vary with each project depending on the support needed) assisting and supporting the

maintenance, repairs, installation, startup, and troubleshooting of boilers / HRSG systems. You may be assigned other duties to help proactively drive our FieldCore vision and align with our organization's core values.

You will gain hands-on experience and grow your career whilst traveling the world and providing power to communities. **How You Will Make a Difference:**

Assist / Completes repairing and installing of Boiler / HRSG parts, components, and systems. Perform tasks within area of expertise safely.

Applies experience and skills to complete assigned work within own area of expertise safely.

Expands skills in own work area within an operational process
