Company: iO Associates

Location: United Kingdom

Category: architecture-and-engineering

Senior Engineer

Local Authority - Yorkshire and the Humber

Grade 7 - 9 £27,334 - £ 34,834

Permanent

Hybrid Working: 2-3 days in office.

Panoramic Associates are supporting a Local Authority in the Yorkshire and the Humber Area in their search for a Senior Engineer in the bridges and structures team.

The post holder will be responsible and involved in all aspects of bridges maintenance, design, assessment, strengthening, site supervision. To some degree, the role can be tailored to build on the post holder's existing knowledge and experience.

Responsibilities:

Management of a significant structures' portfolio including 370 bridges, culverts, footbridges and 400km of highway retaining walls together with other structures for which the Council are wholly or partially responsible.

This includes every aspect of highways structures management: condition data collection and processing, decision making, design, procurement, liaison, construction supervision and programme management, appropriate to the role.

Inspections, Assessments, and Maintenance of highway bridges and structures

Major refurbishment and reconstruction schemes

Stakeholder relationship management, including contractors, consultants, other council departments in addition to external organisations, including the public and locally elected Councillors.

Collaboration with developers and other partners on new and improved infrastructure projects.

Requirements:

Ability to work independently and within a team.

Experience in a similar capacity.

HNC/HND or level 4 qualification, in civil engineering or a related subject

Knowledge of structural engineering

People management skills

Project management skills

Negotiation skills

Experience of using AutoCAD and/or other design tools.
