Company: Calibre Search

Location: United Kingdom

Category: other-general

Description

Based in London Bridge, this Building Physics Consultant post is for you if you have been working in building physics for the five years or more and seeking either a Senior or Principal level role.

You'll be joining an outstanding team on a range of schemes with a focus on carbon reduction, net-zero or different levels of certification according to Breeam, LEED or WELL standards. An international design consultancy, they operate in the property, education, healthcare and many more markets.

As a Building Physics Consultant you'll be working on a diverse range of schemes of differing size, focus and complexity, in all it's a really exciting role with great prospects.

For your application to be successful you will need to have c. 5 years experience in IES VE undertaking energy analysis, be experienced at dealing with GLA planning requirements and be used to carrying out TM54 Energy modelling etc.

Qualifications wise you'll need to be a Level 5 LCEA assessor, hold a degree in building engineering and ideally be a qualified SAP assessor with experience of using Trisco or another thermal bridging software.

In return you'll be able to expect a salary up to c. £ depending on whether you are Building Physics Consultant of senior or principal level, rounded package with enhanced pension, 26 days holiday that increases with service, private medical, season ticket loan (useful when you are based at London Bridge!), hybrid working (3 days in, 2 days out) and a wealth of tax friendly benefits.

Calibre Search promote equality in the workplace and we welcome applications from all suitably skilled or qualified candidates regardless of their sex, race, disability, religion/beliefs, sexual orientation or age. We act as both an employment agency and employment business.
