

## Cad Designer

[Apply Now](#)

Company: Bluebolt Recruitment

Location: Pudsey

Category: architecture-and-engineering

We are seeking an CAD Designer to work for a joinery manufacturer in Leeds called specialising in shop-fittings and bespoke commercial furniture.

We are currently seeking an experienced and detail-oriented Technical Designer to join the team. As a Technical Designer you will play a pivotal role in translating design concepts into precise, manufacturable joinery solutions. Your expertise will be essential in ensuring that our products meet the highest quality and functionality standards.

### Key Responsibilities:

- \* Collaborate closely with our sales team to understand project requirements and client expectations.
- \* Translate design concepts and sketches into detailed technical drawings and specifications.
- \* Create 3D models and to visualize designs and assist with project presentations.
- \* Conduct feasibility studies and provide input on design modifications to optimize manufacturability.
- \* Select appropriate materials, finishes, and hardware while considering cost-efficiency and

quality.

\* Work closely with production team, providing technical guidance and support throughout the manufacturing process.

Qualifications:

- \* Proven experience as a Technical Designer in the bespoke joinery or woodworking industry.
- \* Proficiency in CAD software (SolidWorks).
- \* Strong knowledge of joinery construction techniques and woodworking processes.
- \* Knowledge of materials, finishes, and hardware commonly used in bespoke joinery.
- \* Knowledge of Bespoke Joinery Manufacturing is critical. At least 5 years experience is required in this field
