

Chemist (Battery Materials)

[Apply Now](#)

Company: Polytec Personnel Ltd

Location: Godmanchester

Category: other-general

Location: Huntingdon (PE29)

Duration: 2 Year Fixed Term

Hours: 9am until 5:30pm (Monday to Friday)

Salary: Circa £40,000

Job Reference: 35123

Polytec are looking for a Scientist specialising in battery materials for our Huntingdon based client. You will play a key role in developing next generation energy storage materials, maximising their performance and gaining an understanding of the structure. This is a temporary role offered on a two-year fixed term contract in the first instance.

Responsibilities:

- * Contribute to brainstorming, studies, and project meeting discussions
- * Formulation of electrode and electrolyte material inks and pastes, including solvent screening and microscopy studies of the morphology of dried material deposits
- * Fabrication of coin cell devices and testing of novel battery materials
- * Timely and accurate compilation of results

Requirements:

- * PhD in chemistry, material science or physics a degree coupled with equivalent work experience will also be acceptable
- * A good knowledge and practical experience in electrochemical techniques or battery technologies
- * IT literate, familiarity with Microsoft Office

The following would be an advantage:

- * Relevant work experience in a high-tech R&D or manufacturing environment
- * Inorganic chemistry, polymer physics, and relevant analytical techniques
- * A good understanding of structure – property relationships in functional materials
- * Experience with battery technologies or electrochemical techniques
- * A good understanding plus practical experience in synthetic organic chemistry

Please contact us as soon as possible for more details or apply below!

We will respond to successful applicants within a couple of days.
