

## Chiller Service Engineer

[Apply Now](#)

Company: Carrier

Location: United Kingdom

Category: other-general

### Country:

United Kingdom

### Location:

UK Field Based, Field Based, United Kingdom

**Role**Chiller Service Technician

**Location**Midlands - North England

**Contract type**Full time, permanent

Toshiba Carrier UK (a Carrier company) is a worldwide leader in the manufacturing and supply of energy-efficient air conditioning systems.

We are looking for **Chiller Service Technicians** based in the **Midlands - North England** area.

The main goal will be to trouble shoot, support the majority of breakdowns and commission all standard products, mainly water cooled chillers – in order to help provide a high-class service to our customers.

### What will I be doing as a Chiller Service Technician?

Working unsupervised, you will respond to service calls in an effective and efficient manner, ensuring risk assessments are conducted and documented prior to all works to be carried out, and complete all work to an agreed high level.

To be able to run large sites, single handed and / or supervising other technicians, to the full satisfaction of the customer. Able to fulfil the standard commercial and technical aspects of the contract without supervision.

To be able to troubleshoot and support technically challenging breakdowns, both in person and via computer or phone linkups.

To be able to commission standard and large capacity product but also advise on the wider system installation and identify system issues beyond the scope of supply.

Attend and participate in customer meetings with little or no supervision

May need to act as an SME to assist the Training Manager to prepare and deliver courses.

Be able to understand and review, to a fully competent level, complex technical documents such as wiring diagrams, P&ID drawings, Pressure Enthalpy diagrams, etc.

Create detailed technical reports and detailed dilapidation surveys.

Demonstrate and provide Expert support in one of the following technical disciplines, general theory and technical support, Centrifugal Compressor rebuilds, Absorption Chillers, Controls Chiller Sequencing

## **Requirements**

City & Guilds Qualification in Refrigeration and Air conditioning

Full UK Driving licence (or equivalent)

City & Guilds or equivalent in Safe Handling or Refrigerants

F Gas qualified.

Very high level of technical competence is required with relevant experience of both Carrier and other manufacturer's equipment.

Experience within a similar role in the HVAC industry, especially chillers

Experience within a Technician role in the HVAC industry

HNC / ONC in Refrigeration and Air Conditioning

## **Benefits**

We are committed to offering competitive benefits programs for all of our employees, and

enhancing our programs when necessary.

Competitive salary package (Negotiable DOE)

Lead generation bonus scheme

Company Vehicle

25 Days Holiday + bank holiday

Holiday purchase scheme

Company Pension

Career progression – we love to build and nurture talent from within, therefore we'll work with you to achieve your long-term career aspirations

The opportunity to work on industry leading equipment and gain knowledge of a variety of controls on both small & large retail refrigeration pack experience.

### **Our commitment to you**

As an employer of choice, we strive to provide a great place to work that attracts, develops and retains the best talent, promotes employee engagement, fosters teamwork and ultimately drives innovation for the benefit of our customers. In short, Carrier's greatest assets are the expertise, creativity and passion of our employees – and we're excited for you to join the team.
