

Civil Engineer

[Apply Now](#)

Company: Strata Construction Consulting UK Ltd

Location: Brixton

Category: architecture-and-engineering

We are seeking an enthusiastic Development Infrastructure engineer to join the global team. The Development Infrastructure department specialises in providing high level advice and design to public and private sector clients on planning and design issues relating to Highways, Drainage, Flood Protection, Residential Developments, Business Parks, Retail, Industrial and Commercial Developments.

What's on offer

- * Hybrid / Flexible Working
- * Health / Wellbeing Programme
- * 24/7 Doctor
- * Mentoring / Clear Progression Path

What you need to succeed

- * Working within a team to produce designs and drawings for construction projects and deliver technical reports for master planning and to support planning applications.
- * The ability to produce masterplans, site appraisals, write reports to support planning applications, design calculations and construction drawings.
- * Have a knowledge of and ability to deliver highway design, highway drainage principles (layout, parameters, etc.), surface water and foul drainage designs.

- * Experience in the use of Windes drainage software and PDS or Civils 3D modelling.
- * Sound knowledge of the relevant design codes such as DMRB, Local Authority Highway and Water Authority Design Guides and be well versed in the preparation of drawings for S38 and S278 Highway Agreements as well as S106 Drainage Agreements.
- * You will contribute to the delivery of concept studies and strategies with hands on design, leading to planning applications or construction drawing issue.
