

Civil Engineer (Highways & Transport)

[Apply Now](#)

Company: Carrington West

Location: Greater London

Category: other-general

My client is currently seeking an enterprising individual to join a growing team and service within the company. Their work is largely development-led, working with exciting developers and architects, across a range of sectors. This is a client and design team facing role, with the candidate leading the day-to-day input and management of projects relating to transport and highways. The role provides additional opportunities to be involved with bid proposals, best practices, and managing others.

The ideal candidate:

- Experience in Transport Planning; producing Transport Assessment, Travel Plans, Delivery and Servicing Plans, Car Park Management Plans.
- Proven Expertise Highway Design including S278/S38 Technical Approval.
- Proficiency in GIS for spatial analysis.
- Familiar with CAD/Civil3D.
- Familiarity with Flood Risk, Drainage and SuDs design (preferred, but not essential).
- Chartered or progressing chartership with ICE or CIHT.
