Civil Engineer

Southampton

REF MR50

Salary up to £42,000

Our client, a well-respected civil engineering firm in Southampton, is seeking a dedicated Civil Drainage Engineer to join the team and lead the design and implementation of cutting-edge drainage systems.

Working as a Civil Drainage Engineer you'll have the opportunity to work on a variety of projects ranging from residential and commercial developments to infrastructure and environmental initiatives. You will collaborate with a talented team of engineers and professionals committed to delivering innovative and sustainable solutions.

Key Responsibilities for this drainage engineer role are;

Design, analyse, and optimize drainage systems for various projects, ensuring compliance with industry standards and regulations.

Conduct site assessments and surveys to identify drainage requirements and constraints.

Prepare detailed engineering drawings, calculations, and specifications.

Collaborate with clients, architects, contractors, and regulatory agencies to develop tailored drainage solutions.

Provide technical expertise and guidance to junior engineers and project teams.

Stay updated on emerging technologies and best practices in drainage engineering. Requirements:

Bachelor's degree in Civil Engineering or related field. Master's degree preferred.

Proven experience in civil drainage engineering, including design, analysis, and project management.

Proficiency in industry-standard software such as Microdrainage, AutoCAD, Civil 3D, and StormCAD.

Strong understanding of hydraulic principles and stormwater management techniques.

Excellent communication, problem-solving, and teamwork skills.

Chartered Engineer status or working towards professional accreditation. Our client is offering a competitive starting salary, regular pay reviews, life style benefits to suit individual needs, bonus schemes, options for career progression and more!

Interested? Please call MIKAELA on (phone number removed) or email your CV to
