Job description

Civil Infrastructure Engineer or Technician - Bristol - Up to £45,000

Are you passionate about shaping the future of infrastructure development? Do you thrive in a collaborative environment where innovation and sustainability are at the forefront? If so, we have an exciting opportunity for you to join our client's Infrastructure team in Bristol.

About Us

We're not just a consultancy; we're visionaries who transform landscapes and communities. With a focus on innovation and sustainability, we tackle projects across various sectors including residential, health, education, retail, energy, leisure, and employment. Since our inception in 2003, we've built a reputation for excellence and delivery, thanks to the dedication of our talented team across 14 offices nationwide.

Shape Your Future With Us

As a Civil Infrastructure Engineer / Technician, you'll collaborate with a dynamic team to

produce designs, calculations, and drawings for planning applications and construction projects. You'll have the opportunity to work across multiple sectors, contributing to diverse projects and client accounts. We value creativity, innovation, and attention to detail, ensuring that our work meets the highest design standards and quality management procedures.

What We're Looking For

We're seeking a talented Civil Engineer or technician with the individual with:

A BEng/MEng in Civil Engineering or a related field

Experience in highway engineering or general development infrastructure design

Proficiency in highway design principles and relevant software such as AutoCAD and 3D modeling tools

Knowledge of legal, planning, and technical procedures for highway design and implementation

Excellent communication skills and the ability to work well within a team

What We Offer

In return for your contributions, we offer:

Competitive salary up to £45,000

Comprehensive benefits package

Opportunities for learning and development, including our stepping stones programme from Graduate to Executive Director
