

Clinical Data Manager

[Apply Now](#)

Company: VRS-UK

Location: Cambridge

Category: other-general

Clinical Data Manager | 12-month FTC | Cambridgeshire (work from home options)

A unique opportunity for an accomplished Clinical Data Manager to join a leading laboratory changing clinical practice!

Our client is a key player within medical devices sector, focused on delivering accurate non-invasive, point of care tests to patients. Their patented technology is used to measure patient breath samples for specific volatile organic compounds (VOC's) as biomarkers of cancer, liver disease and gut microbiome diseases. As a Clinical Data Manager within this company, you'll be an expert in clinical data management processes, standards and technology.

You'll be responsible for:

- * Overseeing the data management of clinical trials
- * Designing, developing and maintaining a clinical database
- * Leading the design and validation of CRF specifications
- * Supporting the data strategy through risk assessments related to data management

This role is for you if you possess:

- * Clinical data management experience within the Biotech/Pharma/CRO sector
- * Strong understanding of clinical database structures, programming languages and data standards
- * Knowledgeable in Good Clinical Data Management Practices and relevant regulations
- * Ability to collaborate and communicate effectively with teams and stakeholders
