DevOps Engineer | Remote | Tech Modernisation Project Azure | Kubernetes | AKS | C# | Dotnet | .Net | PowerShell | Terraform | Cloud | Platform | SRE | Microsoft

I am looking for a DevOps Engineer to join an award winning enterprise who about to embark on a multi-million pound Kubernetes project after recently receiving funding! You'll have the chance to work with the latest technology across Azure, Kubernetes (AKS), Octopus Deploy, .Net and C#. Founded back in 2005, they've grown to 300+ people across the UK, US, Australia, Canada, and Germany – and they have ambitious plans to expand even further! With the goal of tripling in size in 2026, there is a lot of career opportunities here! The successful DevOps Engineer can expect to receive a salary around £70,000 depending on experience + a fantastic benefits package including 25 days annual leave and 10% bonus! If this is of interest then please click APPLY to find out more.
