

CNC Setter/Operator

[Apply Now](#)

Company: Mydas Recruitment

Location: United Kingdom

Category: other-general

Overview

Mydas Recruitment are experts in the sourcing and supply of Engineers to leading organisations.

An exciting opportunity has arisen for a CNC setter/operator within an dynamic & growing industry.

Responsibilities & Requirements

- Responsible for the setting and operating 3 & 5 axis CNC milling machines
- Work autonomously and under your own initiative
- Where required, programme machines in line with technical information provided.
- Set up the tooling required to produce parts.
- Carry out first offs to ensure parts meet quality and technical requirements specified.
- Run product batches to technical requirements to a high standard.
- Check dimensions prior to passing for Inspection.
- Work to company and industry standards
- Comply with quality and regulatory standards.
- Adhere to health and safety requirements.
- You would also be responsible for your own work area and help as a team to maintain the whole CNC department, by keeping it clear of rubbish, spills wiped, clean and tidy.

CNC Setter/Operator

- Skilled CNC Operator / Setter Miller with a minimum of 5 years previous experience
- Proven experience setting and operating CNC Mills – Heidenhain controls

- A relevant qualification
- Excellent level of verbal communication, strong organisational skills
- Ability to read engineering drawings.
- Ability to work to tight tolerances.
- Confident to make quick decisions
- Have an ability to work to short time scales and effectively self-time manage.
- Excellent knowledge of metalworking – especially aluminium.
- Short run production experience
- Knowledge of hypermill and the ability to edit programs would be a distinct advantage but not essential

Competitive salary based on experience & skill
