### Description

#### Commercial Gas Engineer

An excellent opportunity has arisen for an experienced Commercial Gas Engineer / HVAC Engineer (gas bias) to join one of the country's leading facilities management companies working around St. Albans and the surrounding area in North West London.

The role will involve traveling around the region servicing, maintaining, and repairing a range of commercial heating systems as well as some air conditioning and other associated HVAC plant.

#### Key Responsibilities:

Carrying out PPM and reactive maintenance across a number of sites.

You will be the first line in all maintenance throughout your allocated sites.

Ensuring that all technical and compliance paperwork is completed and up to date.

Service and repair a range of mechanical equipment, e.g. boilers, fans, pumps, AHU's, FCU's etc

Safe working practices in relation to 3 phase and single-phase electrics and applications

Carry out surveys and complete reports as required by management

The ideal candidate:

Will have worked in a similar mobile role traveling around the region from home.

Will have mechanical HVAC experience (pumps, motors etc.)

Be able to deal directly with customers and on-site management teams

Have the ability to work at heights, work in confined spaces

A hands-on, can-do and flexible approach to your work

Full Driving License as this is a mobile role

Package/Salary

Basic salary + standby payment = Approx £50, 45hr week

Callout 1 in 5 weeks

Paid travel time

Overtime 1.5x Monday - Friday 2x Weekends

Company vehicle with private use

Private healthcare

Life insurance

33 days holiday

Qualifications / Experience:

ACS Gas - COCN, CIGA, COURT, ICPN, CDGA, TPCP1, TPCP1A - Essential

Desirable but not essential:

City & Guilds F-Gas Category 1

City & Guilds 17th or 18th Edition

Commercial Gas Engineer / HVAC Engineer - St. Albans

Commercial Gas Engineer / HVAC Engineer - St. Albans

Commercial Gas Engineer / HVAC Engineer
