Manufacturing Team Leader

£47,000 - 55,000 per annum DOE + Progression + Training + Overtime + Benefits + Pension + Holidays

Located in Gillingham (Commutable from: Rochester, Sittingbourne, Gravesend, Longfield, Aylesford, Maidstone)

Are you from an automotive or hydraulic background seeking an opportunity with a specialized and growing company, giving you the opportunity to increase your salary and progress through the rankings?

On offer is the chance to work for a well-established business, where you can grow your skill set and have the chance to significantly develop your career.

This company is an industry leader in fuel systems products, and due to their growth, they are looking to expand their engineering department. As a Component Leader, you'll be responsible for leading the manufacturing team, overseeing the technical projects, preparing & presenting the design reviews, and preparing report & presentations for customer use.

The ideal candidate would have previous automotive or hydraulic experience, project

management experience, CAD experience, design background/understanding and a degree in engineering or similar.

This is an excellent opportunity to work for a specialised, stable company who are recognised for looking after their employees, as well as providing excellent benefits and the chance to develop your career.

The Role:

Component Leader

Leading the manufacturing team

Overseeing technical projects

Monday - Friday

Progression + Benefits

The Person:

Automotive or hydraulic experience

Design background/understanding

Project management experience

Based around Gillingham

Team leader, component, component leader, project manager, CAD, design, design engineer, cad engineer, manufacturing, hydraulic, automotive, Gillingham, Rochester, Sittingbourne, Gravesend, Longfield, Aylesford, Maidstone
