Job ID: 2299/7

Location: Oxford

Rate/Salary: £35 - 40K (25 Days holiday, Bonus scheme, Pension, Cycle to work scheme)

Type: Permanent

HSB Technical Ltd is a specialist recruiter within the Power & Propulsion, Shipbuilding, Shipping & Energy and Aerospace sectors. We have a number of permanent and contract vacancies for multiple businesses across the UK and overseas.

The below job description will outline this position of: Composite Finisher Team Leader

Typically, this person will be working hands on and leading a team of up to 10 technicians and be responsible for the finishing of GRP products.

HSB Technical's client is a very established and well-regarded business entity.

Duties and responsibilities of the Composite Finisher Team Leader:

- Checking and overseeing all aspects of the finishing process and mould tool preparation.
- Lead and motivate a team of 10 to ensure that workflow and high-quality finish is achieved.
- Monitor both individual and team performances and highlight any improvement required.

- Creating reports to show to management to highlight areas of improvement and team progress.
- Working hands on with your team and encourage them to get the best out of them.
- Being able to read technical drawings and relay instruction to your team.
- Attend weekly team planning meetings and focussing on scheduling and performance.

Qualifications and requirement for the Composite Finisher Team Leader):

- Looking for someone who has 4 / 5 years' experience within the composite industry and within a leadership position.
- This would suit someone from either a marine or automotive background with focus on finishing procedures.
- Effective leadership skills.
- Team builder/motivator
- Problem Solver
- Good communicator and to get the most out of a team.

This vacancy is being advertised by HSB Technical who have been appointed to act as the recruitment consultancy for this role.
