

## Consultant - Marine Consenting/EIA Project Management

[Apply Now](#)

Company: RPS Group

Location: United Kingdom

Category: other-general

Our Marine Consents and Environment team supports the delivery of large-scale marine and coastal infrastructure projects, with a particular focus on Offshore Wind, Renewables and Energy Transition, across the UK and Ireland. This includes but is not limited to the coordination and delivery of EIAs; marine consents management and compliance; technical review and delivery of reports and building relationships with statutory consultees and other groups/members of the public.

### Who we're looking for

An understanding of EIA for major energy infrastructure projects is required, ideally coupled with direct experience of the offshore renewables sector. Applicants with experience of working in other offshore industries (, Oil & Gas) or onshore energy infrastructure projects would also be welcomed.

A post-graduate qualification in a relevant environmental discipline and an interest in obtaining a membership or chartered status of a relevant professional institute is desirable.

### What's in it for you?

If you're interested in how we use and manage the marine environment and want to help meet NetZero targets through the development of offshore renewable energy, then talk to

us about our career opportunities in this area.

We encourage and value different ideas, perspectives, and styles of thinking. We need a mix of experiences and skills to develop the most innovative ideas. We respect one another and recognise the potential and contribution of everyone. You'll be joining a diverse community and a company that puts its people first and prioritises their wellbeing.
