Control Systems Engineer (Railway Industry)

Colchester

£65,000 - £70,000 + Progression + Gym Membership + EAP + Holiday + Pension + Overtime

Are you a PLC/ Control Systems Engineer with a background in Allen Bradley looking to work on state of the art railway projects where you will have complete autonomy and responsibility for delivering varied and technically challenging projects?

On offer is the chance to join a company in the railway sector, you'll have the opportunity to be a key player in the company's expansion, focused on delivering state-of-the-art control and safety solutions globally. As an essential part of the team, you'll contribute to the advancement of dependable control systems in rail operations, with a steadfast commitment to improving safety and efficiency.

In this role, you'll utilize AutoCAD for designing control and safety systems, conduct PLC programming from scratch using Allen Bradley/Rockwell Software and oversee testing, validation, and commissioning of industrial automation systems, focusing on railway applications.

This role would suit a Control Systems Engineer with proficiency in PLC programming from scratch with a passion for the railway industry looking to advance in the career.

### The Role

Designing and developing control and safety systems using AutoCAD

PLC programming using Allen Bradley/ Rockwell software

Testing, validation, and commissioning of industrial automation systems, with a focus on railway applications

Control Systems Engineering background

PLC Programming from scratch experience

Happy to travel Internationally and UK wide  
Keywords: Control System Design Engineer, Automation, PLC Programming, AutoCAD, Allen Bradley, Industrial Automation, Commissioning, Safety Systems

Reference Number: BBBH12419b
