Company: ARCA Resourcing Ltd

Location: Coventry

Category: architecture-and-engineering

Controls Engineer (Automotive)

ARCA Resourcing is partnered with a global leader in mobility technology within the automotive industry who are looking to recruit a Controls Engineer to join their team.

Responsibilities:

- * Assist in the development of processes supporting powertrain control requirements.
- * Develop, simulate, implement, troubleshoot, test, and explore control and estimation algorithms for diverse electrical, mechanical, and thermal systems within powertrain setups.
- * Collaborate with suppliers and other relevant parties to assess hardware and software characteristics.
- * Spearhead the creation of software and controls for electrified powertrains.

Experience:

- * Proficient in automotive engineering with expertise in designing and validating electrified powertrain systems.

* Skilled in developing automotive control systems software, utilising data logging and calibration tools.

* Excellent communication and presentation skills.

Ideally you'll have experience of some of the below:

* Electrified powertrain

* ISO 26262 and ASPICE.

* Vector (CANalyzer, CANape)

* Matlab/Simulink

This is a permanent position based out of Coventry, if you would like to know more information about this Controls Engineer position then please apply for immediate consideration.
