Description

About Anthesis

Anthesis is the sustainability activator. Proud to be a B Corp, we seek to make a significant contribution to a world which is more resilient and productive. We do this by working with cities, corporates, investors and other organisations to drive sustainable performance. We develop financially driven sustainability strategies, underpinned by technical expertise and delivered by innovative collaborative teams across the world.

Anthesis has clients across all industry sectors and supports some of the world's largest multinationals such as Reckitt, Cisco, Tesco, The North Face, and Target. The company brings together 1,300+ experts operating in 42 countries around the world and has offices in Andorra, Brazil, Canada, China, Colombia, Finland, France, Germany, Ireland, Italy, the Middle East, the Philippines, Portugal, Spain, South Africa, Sweden, the UK, and the US.

At Anthesis Group, we are truly committed to putting people and our planet at the heart of all we do.

We encourage all employees to contribute their ideas, perspectives, and experiences to help us create an inclusive and equitable workplace. By embracing diversity and providing equal opportunities, we believe we can drive innovation, foster creativity, and achieve our shared

goals. So, if you're ready to be a part of something truly extraordinary, then we want you! Qualified applicants will receive consideration for employment without regard to race, colour, religion, sex, sexual orientation, gender perception or identity, national origin, age, pregnancy, marital status, protected veteran status, or disability status.

Together, we can continue to build a diverse and inclusive workforce where everyone has an equal opportunity to succeed and thrive.

If you require any reasonable adjustments to be made to your application process, or need this job advert in a different format, just let us know and we'll be happy to help.

Summary of Role & Key Responsibilities

Summary of Role

We are looking for a dynamic, motivated, and hard-working Data Engineer. The role will report directly into the Solution Architect in IT Team and will play a key role in developing & maintaining data pipelines, support existing Power BI Reports. The data analytics and reporting team will be responsible for supporting the business by providing the internal reporting requirements and data analytics involved to provide actionable insights to further improve business decisions and performance.

Key Responsibilities

Experience in developing, maintaining, and optimizing data pipelines using Azure Data Factory, Azure synapse Analytics.

Experience in working with Power BI datasets and data model.

Understand the business operating model by discussing with the Leads to make sure key metrics and KPIs are understood and delivered in Data warehouse layer.

Collaborate with cross-functional teams to understand data requirements and develop data pipelines.

Develop and implement data quality checks to ensure data accuracy and integrity.

Support the Reporting team to ensure best practices are applied and data engineering requirements are met.

Key Requirements, Skills Knowledge & Expertise

Key Requirements

5 + years of experience in building and maintaining Data warehouse.

Experience in data flows in Azure data factory, Azure Synapse Analytics

Strong experience in writing complex queries using T-SQL.

Strong experience with API based integrations.

Document data architectures, ETL processes, and configurations on Azure.

Familiarity with data modeling and database design principles.

Experience in working closely with Power BI / Report developers in helping understand reporting requirements and deliver solutions.

Experience in Power BI and DAX.

Experience in Logic Apps, Azure functions & Power Platform is an added advantage.

Excellent English language written and verbal communication skills.

Good interpersonal skills with a strong customer service focus

Strong analytical and problem-solving skills

Proactive and a committed team player

Our ideal candidate will be someone who wants to contribute to, and flourish, in a team working at the leading edge of sustainability.

Benefits

Your Benefits

Work within a highly motivated team in an innovative and rapidly growing global company

Opportunity to have a direct impact and be a key part of the growth and development of the business and the team

Work solely on projects that have an impact on the sustainability and climate change goals/challenges for clients

Opportunity to work with, collaborate with and learn from sustainability SME's who are passionate about the work they do and the impact Anthesis can have

Exposure to a wide range of clients and projects on a global basis

Competitive salary in line with, experience and skills

Competitive benefits including flexible working, 25 days holiday and two volunteering days off and the day off for your Birthday!

An opportunity to participate in the Anthesis Employee Participation Plan (EPP), an industry-pioneering employee incentive plan that allows all employees to be rewarded for the growth in the equity value of Anthesis.

Cooperative, supportive and open working atmosphere.

Anthesis is the sustainability activator. We seek to make a significant contribution to a world which is more resilient and productive. We do this by working with cities, companies, and other organisations to drive sustainable performance. We develop financially driven sustainability strategies, underpinned by technical expertise and delivered by innovative collaborative teams across the world.
