[Apply Now](#)

Company: Primis

Location: United Kingdom

Category: other-general

Job Title: Data Engineer Location: London (Fully remote) - All employees must be eligible to work in the UK without sponsorship Salary: £55,000 - £60,000 The Role: Design, develop & maintain applications to enable ingestion, rapid access, & analysis of data to accelerate discovery & enable decisions across Products teams. Collaborate with colleagues to rapidly specify, implement & deploy fit-to-purpose data pipelines. Evaluate commercial & open-source tools to improve the data pipelines. Maintain data engineering documentation. Data Engineer Requirements: GCP/Google Cloud Platform experience Able to design complex queries to generate clear representations of data from complex relational schemas across SQL/NoSQL platforms Programming experience in scripting languages such as Python or Go Data Engineer Desirable's: Experience with a cloud data warehouse/data lake. Experience of cloud migrations Software experience with Geospatial technologies. GCP | AWS | SQL | NoSQL | Python | Go | Data | Fully Remote | London | UK Please apply if you are a Data Engineer and are interested in hearing more. Research indicates that men will apply to a role when they only meet 50-60% of the descriptions, however, when looking at women and other minority groups, they can look for up to a 99% match in order to apply to a role. If you feel you are a fit for our role, please still apply, don't worry if you don't tick every single box. We'd still love to hear from you. We encourage underrepresented talent to apply to all our roles & support accessibility needs'.
