## Data Management –Team Manager

### NTT DATA Business Solutions –

NTT DATA Business Solutions Group is part of the NTT DATA Corporate Group a top global IT services provider, headquartered in Tokyo, operating in more than countries. We combine a global reach with local intimacy to provide premier professional SAP services from deep industry expertise consulting to applied innovations in digital, cloud, automation, and system development to business IT outsourcing.

As a global SAP Platinum Partner, NTT DATA Business Solutions Group leverages its global expertise to deliver quality outcomes whether you are a multi-national or operate in a single country. With over , SAP experts across countries, we have the capability and reach to help you solve real problems and seize the next opportunity for growth around your SAP strategy and operations.

Our global award-winning SAP practice, differentiated by innovation is the undisputed leader in SAP S/4HANA. With about SAP HANA clients and more than SAP S/4HANA clients.

Our clients trust our deep experience and proven approaches - all around the world.

Following the market growth and our recent acquisitions, NTT DATA Business Solutions are increasing the portfolio of tools and data services they are providing to customers.

As part of this initiative, NTT DATA are recruiting a Data Management Team Manager to the next possible date.

As a key member of our team, reporting to our Data Management Practice Director, you will be responsible for managing data teams across various engagements, and work with pre-sales

and delivery stakeholders to consult with customers in data management, tools, technologies, and processes.

In this role you will contribute towards the departmental performance such as innovation, efficiency, and quality assurance.

It's envisaged that you will have previous line management experience along with performance management and extensive experience of SAP data migration across a range of technologies.

The role will principally be based via home working, with visits to NTT DATA offices and client sites when required.

**Overall objectives for this role are:**

- Leading and managing Data teams, including onboarding, mentoring, and performance management with the ability to provide strategic direction, set goals, and ensure the team's efforts align with the practices and organization's strategy
- To manage stakeholder relationships and expectations on all client engagement phases, representing the Data Practice internally and externally
- To support client development management, pre-sales and sales activities with the Data team resources and capabilities to meet the companies commercial targets
- To oversee active engagements to ensure high quality of delivery from initiation through the entire engagement lifecycle
- To support data practice capability development by continuously improving the engagement methodology and providing collective feedback on our data toolsets towards the toolset owners
- To mentor and guide internal data team to learn new tools and skills, including usage of the Natuvion and other NTT DATA owned data toolsets

**Experience & Background:**

- Experience of SAP data migration tools, data archiving tools and Master Data Governance tools and their respective processes
- Not required, but beneficial would-be experiences with non-SAP data models and software
- Experience of working in pre-sales and responding to RFPs
- Proven track record of successfully managing multiple data projects simultaneously from initiation to delivery whilst prioritizing tasks effectively
- Able to advise and consult at client C-1 level
- Experience of building and coaching teams in the data space

- Experience of working with 3rd party providers of Data Management software, ideally within larger implementation projects
- Experience of working with multiple global teams across different time zones and flexibility to work extended hours and travel where required
- Demonstrates a high level of personal responsibility, pragmatism, and autonomy, planning own work to meet given objectives within a defined framework
- Strong interpersonal and communication skills to effectively collaborate with cross-functional teams and stakeholders
- Excellent in Excel, PowerPoint, and Word skills with good attention to detail

**We offer:**

We offer a range of benefits including

- A competitive group pension plan, life assurance and income protection
- One free Friday per calendar month
- “work where it works” policy for the UK
- Private medical insurance, private dental care and critical illness cover
- Cycle scheme, electric car scheme
- Some of these benefits may be available only after you have passed your probationary period

**GENERAL**

- You will be expected to follow relevant policies, procedures and work instructions, and report to the appropriate superior if objectives cannot be met or a problem occurs, the resolution of which is outside the scope of his/her authority.
- The jobholder is empowered with the necessary authority to make decisions appropriate to the execution of the responsibilities and tasks outlined. The above Job Description does not limit the employee in executing his job in concurrence with his main area of responsibility or other relevant jobs that they may be required to do.
- NTT DATA is an equal opportunities employer. Please advise us should you require special arrangements for the interview process.
- You must be eligible to work in the UK and prepared to undergo high level security clearance

We encourage you to consider becoming a part of our dynamic and innovative

organization. Thank you for your interest, and we look forward to hearing from you soon!

We transform. SAP® solutions into Value
