Company: Amicus

Location: London Area

Category: other-general

Mid- Senior Data Scientist – Up to £70,000 – London Based (Hybrid up to 3 Days a week)

I have a new opportunity for a Data Scientist to join a dynamic tech business based in Central London! Company This early-stage start-up were founded just under 5 years ago and having recently took their product to market they are looking to expand their London based team. They have developed a unique analytics and management platform for the hospitality industry which can be used directly by their target market. This software uses Machine Learning to automate processes, optimize pricing and provide visualization of actionable insights that their clients can use. Already partnered with over 10,00 businesses, their custom web portal is tailored to streamline processes and provide deep understanding to data. They are now looking for their first hire within the Data Science team to join the founders and be fundamental to the growth and development of the company. The Role Your role within the company will be focused on creating new Machine Learning models for use on their state-of-the-art platform. You'll be developing and testing new models for forecasting, prediction, and optimization, as well as keeping up to date on the latest developments and techniques that could be applied to your work. The role will be fairly analytical, so a background in Mathematics/Statistics/Economics is highly beneficial to add a deeper level of understanding to models you build. Joining a start up can require you to wear many hats so you'll need to be a team player, and a high level of communication will be key as you will also have the opportunity to be client facing if you wish. You'll need: MSc OR PhD in a STEM subject – ideally from a top UK university Experience with Python /TensorFlow/Keras Experience with Dynamic pricing Solid knowledge & understanding of Machine Learning/Data Science Willingness to learn and work

well within a team·Research experience is a bonus!On offer is a salary up to £70,000 + benefits!Please click apply or send an up-to-date CV to Sam.smith@amicusjobs.co.uk if you would be interested in hearing more.Mid- Senior Data Scientist – Up to £70,000 – London Based(Hybrid up to 3 Days a week)
