

## Data Scientist

[Apply Now](#)

Company: Venn Group

Location: London Area

Category: other-general

Are you a talented Data Scientist eager to join a fast-scaling FS firm in London? Your Role: As a Data Scientist, you will: Utilize your expertise in data science and machine learning to develop innovative solutions to complex problems Collaborate closely with cross-functional teams to identify opportunities and deliver impactful results Leverage Python and other tools to analyze large datasets, build predictive models, and extract actionable insights Drive the design and implementation of machine learning algorithms, experimenting with different approaches to optimize performance Contribute to the continuous improvement of processes and methodologies, fostering a culture of innovation and excellence Skills Required: 3-5 years of experience working as a Data Scientist in a professional setting. Experience in an investment firm Deep understanding of predictive modelling, machine-learning, clustering and classification techniques, and algorithms Fluency in a programming language (Python, C, C++, Java, SQL) Proficiency in Python and familiarity with relevant libraries and frameworks. Experience working in a startup environment is highly desirable, demonstrating adaptability, initiative, and a passion for innovation. Please discuss with the Financial Services team at Venn for more details.
