

Design Engineer

[Apply Now](#)

Company: NetZero

Location: London

Category: architecture-and-engineering

I am currently recruiting for a Solar Design Engineer to work on the development of renewables projects for a fantastic SME developer with a pipeline of 4GW Solar, Hybrid Storage and Wind projects.

The primary focus of this position will be designing utility-scale solar PV systems across the UK using software CAD and PVCase, alongside GIS mapping site locations. Solar design background and GIS mapping experience required. BESS background and experience with QGIS and ArcGIS would be beneficial.

The company are growing rapidly, comprised of land specialists, engineers, planning and development specialists. Their strategy is to develop greenfield projects, co-develop and acquire ready to build projects, innkeeping with their IPP model.

The role can be based in the London office and offers a competitive salary package, excellent benefits, and an inspiring company culture.
