Water Design Manager

Job description

Position Design Manager - Water Projects

Location UK Wide (Remote Working Available)

Responsibilities:

We're seeking a talented Design Manager to join our client's Water Projects team. In this role, you'll lead design efforts for various water projects across the UK. Key responsibilities include:

Leading the design process for water projects, ensuring compliance with regulatory standards and client requirements.

Collaborating with project teams and stakeholders to develop innovative and sustainable design solutions.

Overseeing the coordination of design activities, including Mechanical, Electrical, and Civil

aspects.

Conducting design reviews to ensure quality and accuracy throughout the project lifecycle.

Providing technical guidance and mentorship to junior design staff.

About You:

Extensive experience in design management, preferably within the water sector.

Strong understanding of regulatory requirements and best practices in water design.

Proficiency in design software and tools.

Excellent communication and interpersonal skills.

Proven ability to lead and motivate design teams to achieve project objectives.

Join Us:

Our client is a leader in water engineering, committed to delivering innovative and sustainable solutions. As part of our team, you'll have the opportunity to work on exciting water projects across the UK, contributing to the management and conservation of water resources.
