

United Kingdom Jobs Expertini®

Director, Project Management - Nuclear

[Apply Now](#)

Company: Worley

Location: United Kingdom

Category: business-and-financial-operations

Building on our past. Ready for the future

Worley is a global professional services company of energy, chemicals and resources experts headquartered in Australia.

Right now, we're bridging two worlds as we accelerate to more sustainable energy sources, while helping our customers provide the energy, chemicals and resources that society needs now.

We partner with our customers to deliver projects and create value over the life of their portfolio of assets. We solve complex problems by finding integrated data-centric solutions from the first stages of consulting and engineering to installation and commissioning, to the last stages of decommissioning and remediation. Join us and help drive innovation and sustainability in our projects.

Nuclear Delivery Director

Benefits:

Flexible Working, Hybrid Working Model, Pension, Extra Holiday Purchase Scheme, & Many More.

Role Context:

We're looking for a Nuclear Delivery Director to join us at Worley to lead the development and delivery of our Nuclear and initially our SMR strategy. Worley will be working with SMR technology providers to deliver projects and in-depth knowledge of the nuclear sector is required.

You'll be:

A leader that will both develop and then deliver our nuclear strategy to grow the business.

Developing nuclear strategies for Worley, initially focussing on the UK but later taking this expertise to European opportunities.

Building a team of nuclear professionals to work with our inhouse sales teams to partner, bid and win nuclear projects.

Identifying and building on the nuclear experienced personnel in the organisation.

Providing information and support to the UK leadership team as Worley grows this capability.

Establishing the execution strategy across the projects and supporting performance and delivery to a successful conclusion.

Adhering to the highest ethical standards.

Working closely with the Global Nuclear Director to ensure leveraging of skills, knowledge and lesson learnt from other projects.

Driving collaboration across different Worley locations and regions.

Ensuring that the Worley's risk management system is effectively and fully implemented in order that risks and opportunities are identified, reported, and escalated as required.

Consistently complying with all company policies and procedures, including ensuring compliance with all applicable Safety, Health & Environmental Regulations and rules.

Overseeing as executive projects performance and governance during execution

You'll have:

A strong focus on safety.

The ability to thrive in a complex, dynamic, matrix environment.

The ability to lead and manage multiple complex opportunities simultaneously.

Broad and deep understanding of the nuclear sector.

Proven experience of building and maintaining key customer and stakeholder relationships.

Strong team building skills.

Manage complex and geographically and culturally diverse teams.

Leadership and stakeholder management.

Track record of developing a diverse talent pool.

Professional Knowledge:

Several years of experience at a senior leadership level with proven experience in project delivery.

Extensive experience and leadership in the Nuclear sector.

Proven capability in developing and driving strategy.

Whilst initial focus will be the UK, role will grow to cover European opportunities and knowledge of European markets would be beneficial.

Business development experience.

Nuclear New Build experience.

SMR experience.

Evidence of Continual Professional Development.

Moving Forward:

We want our people to be energized and empowered to drive sustainable impact. So, our focus is on a values-inspired culture that unlocks brilliance through belonging, connection and innovation. We're building a diverse, inclusive and respectful workplace. Creating a space where everyone feels they belong, can be themselves, and are heard. And we're not just talking about it; we're doing it. We're reskilling our people, leveraging transferable skills, and supporting the transition of our workforce to become experts in today's low carbon energy infrastructure and technology. Whatever your ambition, there's a path for you here. And there's no barrier to your potential career success. Join us to broaden your horizons, explore

diverse opportunities, and be part of delivering sustainable change.
