

Early Stage Researcher - School of Biomedical Sciences - 103819 - Grade 7

[Apply Now](#)

Company: University of Birmingham

Location: United Kingdom

Category: other-general

Summary

Work within specified research project to collect research data

Operate within area of specialism

Analyse and interpret research findings and results

Contribute to public understanding of the discipline

Main Duties

The responsibilities may include some but not all of the responsibilities outlined below.

Collect research data; this may be through a variety of research methods, such as scientific experimentation and literature reviews

Analyse and interpret data

Present research outputs, including drafting academic publications or parts thereof, for example at seminars and as posters

Develop research objectives and proposals for own or joint research, with assistance of a mentor if required

Apply knowledge in a way which develops new intellectual understanding

Provide guidance, as required, to support staff and any students who may be assisting with the research

Contribute to developing new models, techniques and methods

Deal with problems that may affect the achievement of research objectives and deadlines

Undertake management/administration arising from research

Contribute to Departmental/School research-related activities and research-related administration

Contribute to enterprise, business development and/or public engagement activities of manifest benefit to the College and the University, under supervision of the project leader

Promote equality and diversity, fostering an inclusive working culture

Person Specification

A first degree (class 2.1 or above, honours) in biomedical science, or related area/subject.

High level analytical capability, incl. independent problem-solving.

Knowledge of the principles of cancer biology.

Experience of cell culture models and general molecular biology techniques.

Good communication skills and team spirit.

An interest to learn new techniques.

Willingness to travel and to participate in outreach and extracurricular activities .

The successful candidate must be eligible to enroll on a PhD program. This requires English proficiency (IELTS 6.5; no less than 6.0 in any band) and the researcher must not have resided or carried out his/her main activity in the UK for more than 12 months in the 3 years prior to recruitment.
